*Five generations of winemakers and more than a century of history. Fathers and sons with the same passion for wine. Over the years we have been acquainted with our territory, selected the best vines, observed their vocation. In the Seventies we longed to produce D.O.C. quality wine bottles and to practice an environmentally friendly agriculture, according to Integrated Production models. Today Cantine Vitea, surrounded by family owned vineyards, performs the whole production process to guarantee authentic and genuine wines. **Wine cellar visitable on reservation. Direct selling. Online store.***
